Testimonial

CPSQ JCI CertificateProgram- 2nd Batch

The program was exceptionally well-structured and practical. The modules made complex JCI standards easy to understand, and the interactive Q&A sessions ensured all our doubts were thoroughly addressed with real-world applications.

CPSQ is doing an outstanding job bridging the gap between theoretical standards and clinical practice. This course has significantly boosted my confidence in quality implementation and provided valuable tools to advance patient safety in my institution.

Heartfelt thanks to the CPSQ team and instructors for their dedication, seamless organization, and support throughout these two months. Looking forward to attending future advanced programs.

Amna Mehmood
SeniorQuality Specialist
Warith International Cancer Institute
Karbala
Iraq

Very well organized and excellent selection of speakers. By giving current practical information and providing insights of tools makes insightful and effective. Very well conducted

CPSQ JCI CertificateProgram- 2nd Batch

As a Quality Manager with over 20 years of experience in laboratory quality management, I found the CPSQ program to be a valuable platform for reinforcing best practices and gaining deeper insights into the practical implementation of JCI standards. The training provided updated perspectives on quality improvement, patient safety, and accreditation requirements while facilitating knowledge exchange among experienced healthcare professionals. Such programs support continuous professional development by bridging evolving international standards with real-world healthcare practice and promoting a culture of continuous quality improvement.

Thank you to the organizers and faculty for conducting such a comprehensive and engaging training program. The sessions were well-organized, interactive, and beneficial. I look forward to attending more advanced programs from CPSQ in the future.

Sushma Uttam Kanukale

Quality Manager- Laboratory
Organization: Emirates Speciality Hospital, DHCC
Dubai

I learned a lot about the JCI Standards. Doubts were cleared thoroughly. Excellent session. It helps & supports JCI hospital standards implementation and it allows us, as internal assessors, to lead the next steps.

CPSQ JCI CertificateProgram- 2nd Batch

I sincerely thank the CPSQ team for conducting the training session on JCI Standards. The session was extremely informative, well-structured, and highly engaging.

The concepts were explained clearly with practical insights, making it easy to understand the standards and their application in day-to-day hospital practices. The training has enhanced our knowledge and provided valuable guidance towards improving quality and patient safety.

We truly appreciate the efforts of the trainers in delivering such an insightful and interactive session. Thank you for your dedication and support. We look forward to participating in more such enriching learning programs in the future.

CPSQ JCI CertificateProgram- 2nd Batch

Firstly, the CPSQ Certificate Program in JCI 8th Edition Standards Implementation provided an in-depth orientation to every chapter of the standards. The sessions were delivered by highly knowledgeable and experienced faculty, which was the primary reason I chose to attend this program.

Secondly, scheduling the sessions on weekends after office hours made it convenient for working professionals to participate without significant disruption to their work commitments.

Thirdly, every question and doubt raised during the sessions was addressed thoroughly. Whenever required, the faculty revisited and re-explained the standards to ensure better understanding and practical interpretation.

CPSQ JCI CertificateProgram- 2nd Batch

The CPSQ Certificate Program in Joint Commission International (JCI) Standards Implementation was exceptionally well structured, comprehensive, and practical. The faculty members were highly knowledgeable, interactive, and always willing to clarify doubts with patience. The discussions, case-based learning, and practical insights have significantly enhanced my understanding of international healthcare quality and patient safety standards.

I would like to congratulate the entire CPSQ team for organizing such an outstanding certificate program. The dedication of the faculty, seamless coordination, and quality of the educational content were commendable. I look forward to participating in more advanced courses and workshops conducted by CPSQ in the future. I highly recommend this program to all healthcare professionals interested in patient safety, quality management, and healthcare accreditation.

The program provided a comp rehensive understanding of JCI standards implementation. The sessions were practical, interactive, and clearly explained, with real-world examples that made the concepts easier to understand. The faculty members were knowledgeable and responsive in addressing participants' questions and clarifying doubts effectively.

I appreciate the dedication and professionalism of the CPSQ team throughout the program. I look forward to participating in future advanced courses and workshops offered by CPSQ.
